## GOOD TO KNOW

### SUSTAINABLE DEVELOPMENT GOALS

The Global Responsibility & Leadership (GRL) programme is inspired by the 2030 UN Agenda for Sustainable Development, reflecting the global challenges we currently face. Challenges are complex and solutions can no longer come from isolated improvements in one single area but require knowledge from various academic disciplines. Sustainable, future-proof solutions require innovations by change agents and leaders educated in methods of interdisciplinary research. UCF offers through GRL a programme that focuses on integrative, collaborative and applied approaches to 'real world' issues.

- Classes at UCF are taught with a maximum of around 25 students per course
- Course evaluations consist of class participation, assignments and exams.
