GOOD TO KNOW

PROBLEM BASED LEARNING

Many courses at Erasmus University College are taught following the Problem Based Learning (PBL) method. PBL is a method of education in which the students are at the centre and the teacher is the guide-on-the-side. Classes are constructed as following:

- Small tutorial groups (12-14 students)
- Real-life or academic problems (cases) as the starting point of learning process
- Discussions and analysis under guidance of a tutor
- Questions from analysis will be used as a guide for self-study (from handbooks and articles)
- Students report back in the next tutorial meeting and discuss findings with other students and tutor

Assessment is consisting of assignments (presentations, essays) and exams.

INTRODUCTION PROGRAMME

The EUC Introduction Programme (Wednesday 19 - Friday 21 January 2022) provides useful information about settling into Rotterdam, EUC's education systems, and our Problem-Based Learning methodology. At the same time, you will get acquainted with the EUC staff, form plenty of new friendships and have loads of fun.

More details about the EUC Introduction Programme will be announced by our Exchange Officer.
