

# FACTSHEET

## UNIVERSITY COLLEGE UTRECHT

### ABOUT

University College Utrecht provides English-language Liberal Arts and Sciences undergraduate education. Founded in 1998, as the first university college in the Netherlands, we are part of Utrecht University. Our campus is home to 750 students with 70 different nationalities. We encourage our students to explore and design their individual curriculum cross-cutting Science, Social Sciences and Humanities, and to engage in extra-curricular activities. To learn more about University College Utrecht please visit our website [uu.nl/ucu](http://uu.nl/ucu)

### COURSES ON OFFER AT UCU

In the Spring semester of academic year 2022-2023, UCU welcomes 2-3 University College students who will study and live on the UCU campus for one semester: 30 January - 17 May 2023.

Students complete 3 to 4 courses worth 22.5 tot 30 EC. Incoming students may participate in all courses offered at UCU except for the Research in context courses and the thesis courses. Courses at UCU are coded by the discipline and the level (10, 20 and 30). For more information about the courses offered at UCU, please visit our [course catalogue](#). Course registration will be finalized during the intro week.

### Housing

All UCU students live on campus and make part of our lively community

### HOW TO APPLY

APPLICATION DEADLINE: 22 October 2022

Interested University College students can indicate their choice to follow courses at UCU by submitting the Inter UC Exchange application form to the International Office of their home college by the given deadline.

You won't be charged tuition fees at the host college but the campus fees (for housing and other matters related to living on campus) will be charged. Possible extra costs incurred through this exchange are the student's responsibility. There are no Scholarships attached to this exchange.

## GOOD TO KNOW

The classical model of Liberal Arts and Sciences is the core of our educational system. You learn to think critically and to employ multiple perspectives by studying different subjects from the Humanities, Social Sciences and Science. At University College Utrecht, you learn to grapple with complicated issues that matter in today's world.

As a University College Utrecht student, you write papers, give presentations, engage in debate, work on assignments in small groups, analyse data and learn the essential academic competencies for good research. You also receive feedback from your teachers and classmates and are encouraged to reflect on your own progress. This helps you keep on improving your academic skills and levels of understanding.

## INTRODUCTION PROGRAMME

The UCU Intro week (January 23-27) provides useful information about settling into life at UCU, the student life and you will meet your tutor. The intro week is organised by our student association and also introduces you to (student) life in Utrecht.

More details about the UCU Intro week will be announced in due time.
